

Case Study – Facebook Webstore for NetSuite

Background: [Blitz Sport](#) is the UK's leading Martial Arts Supplier, including equipment, clothing, weapons, nutrition, fitness and CE Approved products.

Competing, training, instructing and coaching martial arts wasn't enough of an obsession; thus the concept of a store that could provide martial artists with everything they require was born. Blitz Sport grew from a tiny corner shop to supplying to the top names in the industry including Olympic medalists, world champions, gyms, schools, armed forces, and more.

Issue: In an effort to boost online sales, Blitz Sport engaged Explore Consulting to enhance their existing NetSuite webstore, www.blitzsport.com. They also wanted to capitalize on their strong and very active social media presence to showcase products, encourage discussions, and ultimately sell more products to fans of the [Blitz Sport Facebook fan page](#).

AS OF MAY, 2012, THERE ARE **MORE THAN 900 MILLION** ACTIVE FACEBOOK USERS WORLDWIDE POSTING **3.2 BILLION** LIKES AND COMMENTS EVERY DAY.

Solution: Explore Consulting worked with Blitz Sport to implement the [Facebook Webstore App for NetSuite](#). This app was built for e-tailers utilizing the NetSuite SuiteCommerce platform, helping them easily, quickly and inexpensively sell more products by

developing a "Store" box on their Facebook fan page showcasing products from their existing NetSuite online store.

The store implemented entirely within Blitz Sport's Facebook fan page uses their existing NetSuite items and checkout process, so there is no need for multiple accounts or catalogs. All Facebook purchases flow into Blitz Sport's existing NetSuite order management system to make the integration as seamless as transactions coming from their NetSuite online store.

Key features include:

- Leverages NetSuite's Site Builder Add-on
- Rapid development into an existing Facebook fan page as new "Shop" tab
- NetSuite manages all product merchandising, cart, checkout, order processing, fulfillment and customer service
- Open architecture for extensibility
- Multi-currency
- Increased customer service with instant feedback on product comments
