

NetSuite Advanced Order Management

Smarter Omnichannel Order Fulfillment

Key Benefits

- Save time and money by automating the order lifecycle.
- Satisfy your customers with timely order fulfillment from any location.
- Increase repeat business with better customer satisfaction.

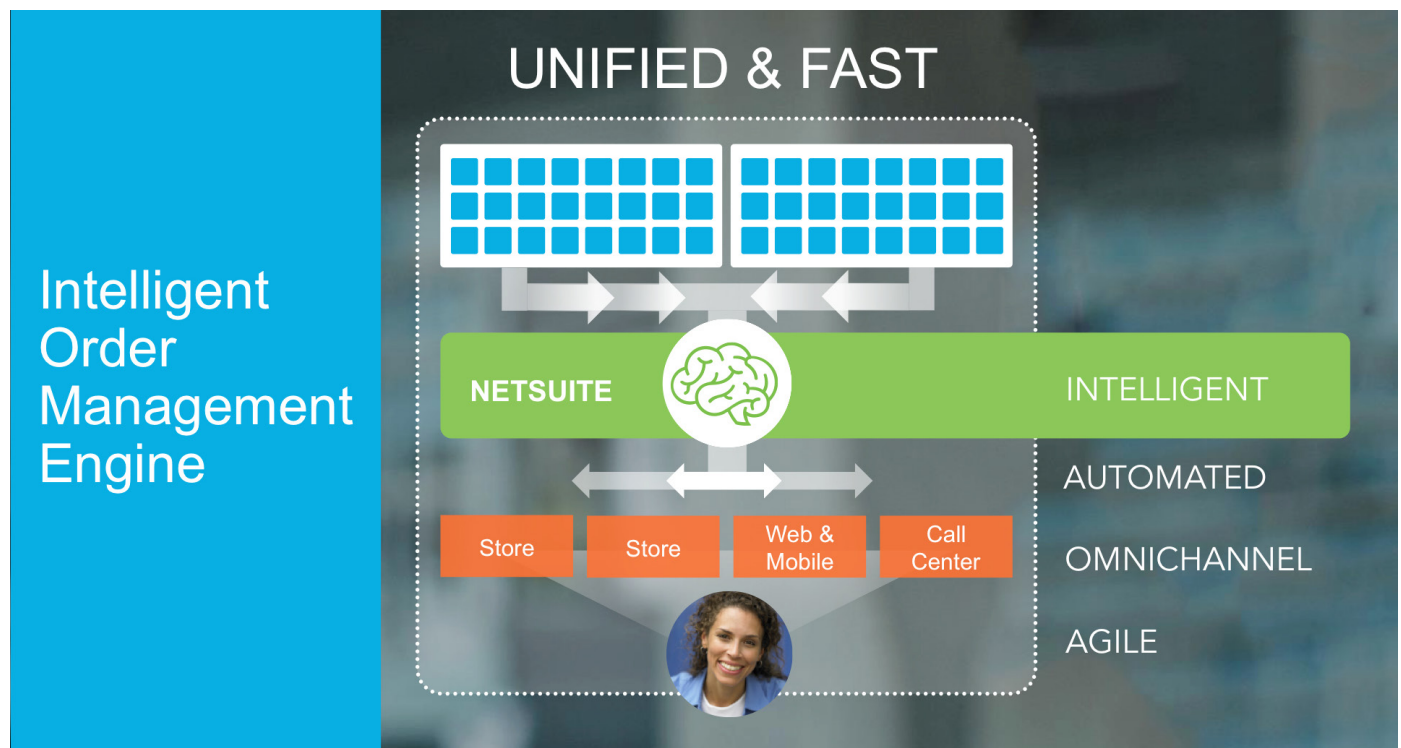

She wants it. You have it. She gets it. Order fulfillment should always be that easy. NetSuite Advanced Order Management enables companies to capture this omnichannel experience quickly and profitably, delivering the perfect order every time with minimal effort for their B2B or B2C businesses.

Product Highlights

Automated Order Processes – Set up fulfillment regions and automatically assign fulfillment location priority to all sales orders.

Intelligent Fulfillment Decisions – Optimize order fulfillment using configurable auto-location assignment rules (e.g. closest location, minimize shipments, shortest time).

Omnichannel Fulfillment Execution – Fulfill sales orders from any location (warehouse, factory, store) across any customer touch point (in store, web store, mobile device, call center).

Deliver the perfect order every time with NetSuite Advanced Order Management.
