We are looking for a developer to join our in-house team and participate in custom development, eCommerce, web-based business systems, mobile applications, and other initiatives. This is a full-time position with benefits and little to no travel.

### Requirements

- Must be a self-starter with solid real-world experience in application development
- Excellent analytical and problem solving skills
- Excellent written and verbal communication skills with an aptitude for learning new technologies
- At least 1 year of software development experience, and user interface development
- Experience with .Net platform: C#, ASP.NET, ADO.NET
- Experience with DTS and database integration
- Experience in database design & development (MS SQL)
- Experience developing web applications using the ASP.NET MVC framework
- XML / Web Services experience
- Familiarity with Web UI technologies a plus (JSPs, Struts, AJAX, Web 2.0 UI, etc.)
- JavaScript experience a plus
- Design (UI) skills a plus

### To Apply

Please submit your resume to Explore Consulting's HR Department at [devjobs@exploreconsulting.com](mailto:devjobs@exploreconsulting.com) referencing the above role in the subject line.

## About Explore Consulting

Based in Bellevue, Washington, Explore Consulting was founded in 2001 and is a professional services company dedicated to providing innovative and cost-effective solutions for their customers' database and IT system's needs. With a focus on cloud web-based business systems like NetSuite and Amazon Webstore, Explore has developed industry-leading cloud and mobile platforms for clients like Liberty Mutual, Jawbone, LifeScan, The Onion, Seattle Seahawks,

American Greetings and the NFL Scouting Combine. As an Amazon Webstore Solution Provider, our team can help you harness the powerful, reliable, and secure Amazon platform by providing services including custom design and implementation, search engine optimization (SEO), eCommerce strategy, training, responsive design, integration and much more.
