

## NetSuite Web Designer / Developer

Are you an experienced Web Developer & Designer looking for an opportunity to showcase your talent in an environment that encourages creativity and innovation? Do you want to get in on the hottest trend in technology today – Cloud development? Explore Consulting seeks talented candidates to work with our in-house team using the hottest technologies in business today, all within a fun environment where we work and play hard while enjoying life balance. You will work with our in-house team to develop cloud-based eCommerce websites on multiple leading platforms including NetSuite, Amazon Webstore, and more. Show us your talent by sending a link to your portfolio or examples of recent work.

### General Responsibilities

- Design graphics and page layout for all web interfaces and ensure quality across browsers and platforms
- Enhance our corporate identity and branding by ensuring consistency across all customer-facing communications
- Assist in the continued build-out of our current websites
- Analyze and improve site usability
- Develop innovative, inspiring concepts to support outbound marketing campaigns such as HTML emails, landing pages, and more
- Create design templates for sales support documents such as case studies, white papers, solution briefs, and data sheets; ensure that each piece provides a visually appealing customer experience while adhering to our corporate identity
- Assist existing designers with daily tasks including marketing initiatives, content management, website maintenance, and much more

### Requirements

- Bachelor's degree in MIS, graphic design, computer science, or equivalent.
- Proficient in Adobe Photoshop
- HTML, CSS, JavaScript, and JQuery Experience
- Must possess a strong aesthetic sense with in-depth knowledge of color, layout, typography, corporate identity, and branding
- Must be a self-starter and continue to learn as solutions and industry dynamics change
- Must have excellent communication skills and be able to work with customers and team members to execute on an implementation plan
- Familiarity with Web UI technologies a (JSPs, Struts, AJAX, Web 2.0 UI, etc.)
- Strong knowledge of user interface and functionality design for websites and web applications

- Knowledge of cross-platform and cross-browser web development, constraints and issues
- Experience implementing websites or applications on Cloud Platforms a plus
- Experience using Microsoft Visual Studio to develop .NET web applications is a plus
- Explore team members are outstanding problem-solvers with excellent communication skills. They're effective workers in groups and individually. Do you have what it takes?

### To Apply

Please submit your resume to Explore Consulting's HR Department at [devjobs@exploreconsulting.com](mailto:devjobs@exploreconsulting.com) referencing the above role in the subject line.
