

Senior Ecommerce Architect

Explore Consulting is a leading expert in Cloud-based business systems, and has assisted more than 900 companies over the past 14 years with a variety of technology needs, from custom application development and systems integration to designing and deploying eCommerce web sites and mobile solutions.

We design and build awesome ecommerce websites for our clients and are excited to elevate our game to a whole new level. At Explore, we are rapidly growing our team and need an experienced technical web engineer to lead us through our next phase of growth. Can you work magic with the latest web technologies (Angular, Backbone, Cordova, Grunt/Gulp, etc.)? Are you eager to showcase your individual talent while leading and mentoring other web developers in an environment that encourages creativity and innovation? If so, we want to talk to you. We work in a dynamic and fast paced environment. At Explore you will get to work with many clients, from startups to international brands. You will also work on a wide variety of projects, while striving for a fun environment where we work and play hard while enjoying work-life balance.

General Responsibilities

- Design and build cutting-edge websites and web based applications on industry leading platforms
- Lead projects from kickoff calls through design, implementation, testing and launching of new websites
- Work directly with clients to understand and find creative solutions to their requirements through design and front end coding
- Participate in the ongoing development of technical, design and ecommerce best practices

Requirements

- Bachelor's degree in computer science or equivalent
- 8+ years of experience in web application design and development
- Expert in HTML, CSS, JavaScript and JQuery
- Familiar with current web technologies like Angular, Backbone, Underscore, Grunt/Gulp, Git, Responsive web design, mobile app dev, etc
- Excellent leadership, communication and organizational skills
- eCommerce experience

Ride the wave! Cloud technologies are the wave of the future and we've had our head in the cloud for over 10 years. Explore Consulting specializes in development and integration of cloud-based and mobile applications. We are the largest reseller and solution provider for NetSuite, a cloud-based set of business applications and the fastest growing ERP solution in America.
