

## Explore Consulting SuiteCommerce Fast Track Category Manager Module

As the SuiteCommerce Advanced Ecommerce platform continues to grow and add additional capabilities to its list of robust features, **the ability to utilize a standard category model has lessened**, replaced with a shift toward facets for quick item drill down functionality.

In answer to this features gap, Explore Consulting has released the FastTrack Category Manager Module.

This module provides the flexibility needed to configure unique pages with individual item listings within your Webstore.

Leverage the functionality of our Category Manager to **design a wide range of layouts and multiple product category assignments to create unique landing pages** that lend themselves to your marketing efforts.

### Key Benefits

- Ability to easily re-order items within a category
- Set up any design / layout desired for each category
- Ability to set up infinite scroll for better user experience
- Ability for non-technical users to set up and maintain categories on their own
- Can be used to set up a promotional category page with graphics and no item listing
- Set up persistent categories or standalone pages for flash sales purposes
- Supports multi-currency so products displayed will automatically change to fit the selected configuration
- Ability to setup promotional content blocks within the item grid

### Module Features

- Ability to set custom URLs for categories allowing for keyword-rich URLs and preservation of URLs currently in use on existing sites
- Features a user friendly interface for inputting SEO-related data and meta tags
- Allows for publishing cycles so users can pre-populate categories before activating on a live site
- Integrated scriptable content area for each category page
- Out of the box left navigation support for category navigation
- Ability to set up unlimited number of custom templates per category
- Easy-to-use interface for setting up category relationship and hierarchy
- Ability to assign items to a specific category based on any of the following options: a user-specified and ordered list of items, a dynamically returned collection of items based on a combination of item data, or a filtered subset of items
- Auto-generated breadcrumbs
- Support of infinite scroll capabilities and all native SCA category page functionality including multiple grids, custom sort order, quick view, facet filtering and more

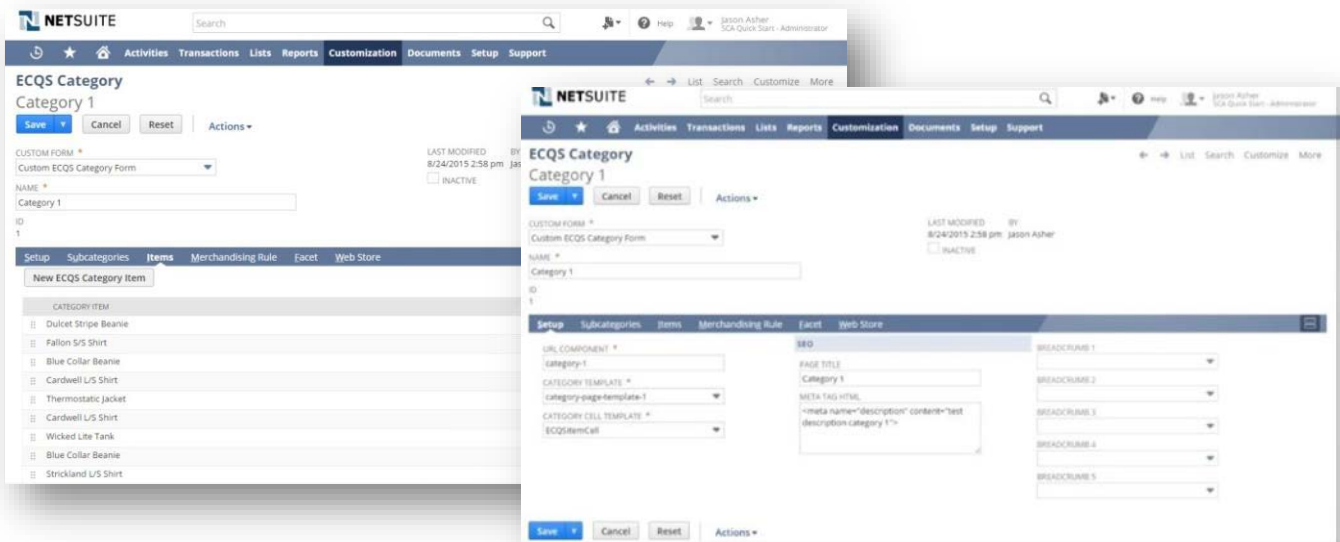

## What Is SuiteCommerce FastTrack?

As a Certified SuiteCommerce Digital Agency Partner with more than 15 years of NetSuite Ecommerce experience, Explore Consulting understands how to successfully leverage the SuiteCommerce platform to take your online business to the next level.

Our SuiteCommerce FastTrack is a collection of pre-built modules that provide a jumpstart approach to building SuiteCommerce webstores, including several pre-built bundles developed to get your site launched quickly.

The solution, **available at no cost to our NetSuite services customers**, leverages newly released SuiteCommerce Advanced features and accommodates commonly needed functionality from enhanced navigation to category management.

Featuring responsive and mobile capabilities, it's the **optimal entry point for a quick, stream-lined SuiteCommerce website launch**.
