

NetSuite for Nonprofit Organizations

One Integrated, Cloud Application to Manage Your Entire Organization

Whether your mission is helping the local community or providing international outreach to empower and educate for global causes, one thing is certain—nonprofit organizations face tremendous complexity and operational challenges. They often run a myriad of disparate applications and spreadsheets and lack tools that are affordable, effective and purpose-built to meet their unique needs.

Ultimately, this doesn't just impair operational efficiency; it undermines the ability to make the social impact nonprofit organizations aspire to.

With NetSuite's unified business management solution, nonprofit organizations can manage their entire end-to-end operations with a single, flexible and powerful business application—integrating nonprofit accounting, fundraising, constituent relationship management (CRM), enterprise resource planning (ERP), inventory management, ecommerce and more.

Key Benefits

- Seamlessly integrate development and accounting for a single version of the truth.
- Optimize project and grant initiatives by gaining real-time visibility into budgets vs actuals.
- Increase fundraising effectiveness and achieve a 360-degree view of constituents.
- Streamline global operations and take advantage of global financial capabilities for operations abroad.
- Drive ecommerce revenue by selling products and services online and build engaging, collaborative social communities.
